- a. Amit should try to settle down into the new atmosphere, observe what other seniors are doing and should follow their footsteps.
  - b. Amit should define some short term goals that will help get entry into the company of his choice
118. Anjali is an average Student. She has set a clear clear long-term goal to join the Civil Services. With the help from experts, she has set some short term goals too, but she is struggling to achieve them. What should she do? (Lecture - 25)
- a. Anjali should change her long term goal to something easier
  - b. Anjali should create a daily a routine that will help her achieve her short term targets
119. What can we learn from the following Alexander-The-Great quote: "Bury my body, do not build any monument, keep my hands outside so that the world knows the person who won the world had nothing in his hands when dying."? (Lecture - 25)
- a. Great people often die unhappy.
  - b. Material gain and reputation are not the most important thing in life
120. Radha's mother has been out for a while now and there is still a lot of housework left to do, like cleaning the utensils and tidying the house. What should Radha do? (Lecture - 26)
- a. Take up the responsibilities and complete the chores herself.
  - b. Wait for her sibling to arrive and then order them to do the chores.

121. Anita and her sister got into a big argument over the small matter of what channel to watch on the TV. Their mother decided to intervene and gave both of them a scolding. What would should Anita do? (Lecture - 26)
- a. Clear up the confusion by explaining that she did not start the argument.
  - b. Accept accountability for her contribution in the argument even if the entire situation was not her fault.
122. Manan is an intelligent college student. But he often gets late to class and he rarely submits the assignments on time. His professor is new at his role and has not noticed Manan's absences. What should Manan do? (Lecture - 27)
- a. Manan can maintain his lifestyle, but should also stay aware such that his grades do not suffer as a result.
  - b. He should become more punctual in his attendance and submissions.
123. What is the closest interpretation of the following quote: "Small things make perfection, but perfection is not a small thing"? (Lecture - 27)
- a. Try to bring perfection into the small tasks of your day-to-day life. Perfection in small tasks drives our life to perfection.
  - b. Perfection is very important for your career. Bring perfection into your important tasks as a student or as a professional.
124. Jenish works as a computer engineer for an upcoming technology company. His manager has set him the task to update an important function for a developing product. From the requirements given by the manager, Jenish predicts him that it will take him at least 10 days to finish it. But his manager has challenged him to complete it in 4 days. How should Jenish react to such a request? (Lecture - 28)
- a. Jenish should tell the manager that 4 days is impossible, but he will deliver it in 10 days.
  - b. Jenish should meet his manager's challenge and try his hardest to try and complete it in 4 days.
125. Bhavya has just completed her master's degree in Biophysics. She is now applying to take a Ph.D. at five of the top 20 universities in America. She has recieved admission to two universities and is now deciding which admission to accept. After weighing up both options, she has seen two deciding factors. Which of the below factors do you think she should priotize as the most important? (Lecture - 25)
- a. The expertise and suitability of the Ph.D. supervisor.
  - b. The reputation and prestige of the university.

126. Birud is a mechanical engineer and is applying for a design job in an automobile company. He has a resume which includes his final year project on wind turbines and his external course on 'Workings of a thermal power plant'. Both of these points are not related to automobiles. Should he make changes to his resume to fit the job he is applying for? If yes, what changes should he make? (Lecture - 29)
- a. Birud has no automobile related experience that he can add to his resume. He should read about automobile designs and be able to recall this in his interview.
  - b. Birud has no automobile related experience to add to his resume. However, he can draw focus to his design experience from his experience in designing the wind turbine to support his application. He can then use his knowledge from his thermal power plant course to showcase his expertise in design. This should aid his application and interview.
127. Naina is in the 2nd year of her law degree. She is worried that she does not have any good experience to add to her resume. What extracurricular activity should she choose to build her profile? (Lecture - 29)
